ROGO LED POCKET LIGHT

Cordless LED

Magnetic Pocket Work Light

ROGO LED POCKET LIGHT is a versatile work light small enough to fit in your pocket yet durable and strong enough to satisfy any task where bright light or UV lights are needed. Light can be carried in your pocket, or attached to a work belt thanks to a side belt-clip. A powerful neodymium magnet also allows this light to be fixed to metal surfaces for extra versatility and hands free use. UV light makes this tool great for any jobs involving leak detection.

Flashlight End
